

Ready, Set, Go Reaching for the STAARS--High School U.S. History DIGITAL RESOURCES TABLE OF CONTENTS

The following list includes links to our resources for use in an online classroom environment. This list contains only the materials that students would need to access and complete and/or manipulate.

Several of these lessons use Pear Deck responses for a virtual interactive experience. If the teacher does not use Pear Deck, the students can always treat the slides as Google slides and record their answers in the note pages or edit the slide with text boxes on their copy.

Law-Related Education will also provide lessons for this workshop in a PDF format for use in a traditional classroom setting.

Module 1: Review Strategies

Review Activities

1. [Era Readings](#)
